

Safer Internet Day 2022

Tuesday
8 February

What do you do online?

**Sometimes everything goes
great**

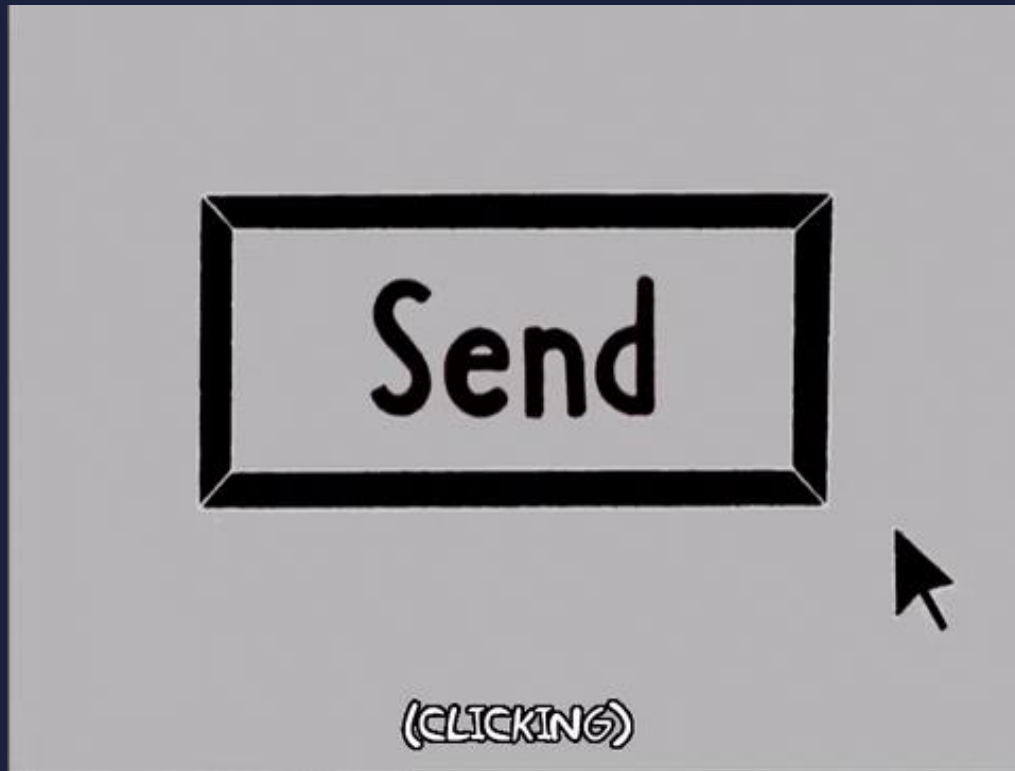

What are some good things you do online?

But sometimes, things don't go well.

Small choices can cause big things to happen

If we throw
rubbish on the
ground...

it might fly
near a lake or a
beach...

an animal might get
caught in it or eat it
and get hurt.

If we click on a
random link...

it could take us
to a scary or
weird website...

it might hurt the
computer or make
you scared.

If we send
a mean
comment...

someone could
feel really sad
or angry...

it might hurt the
computer or
make you
scared.

or someone
could see it and
report it to the
teacher.

Sharing online

ROBLOX

YouTube

Google Drive

**There are laws to keep
us safe online.**

One of them is called the:

**Harmful Digital Communications
Act.**

Have you made **a friend** online that you **don't know** in person?

Keep it real

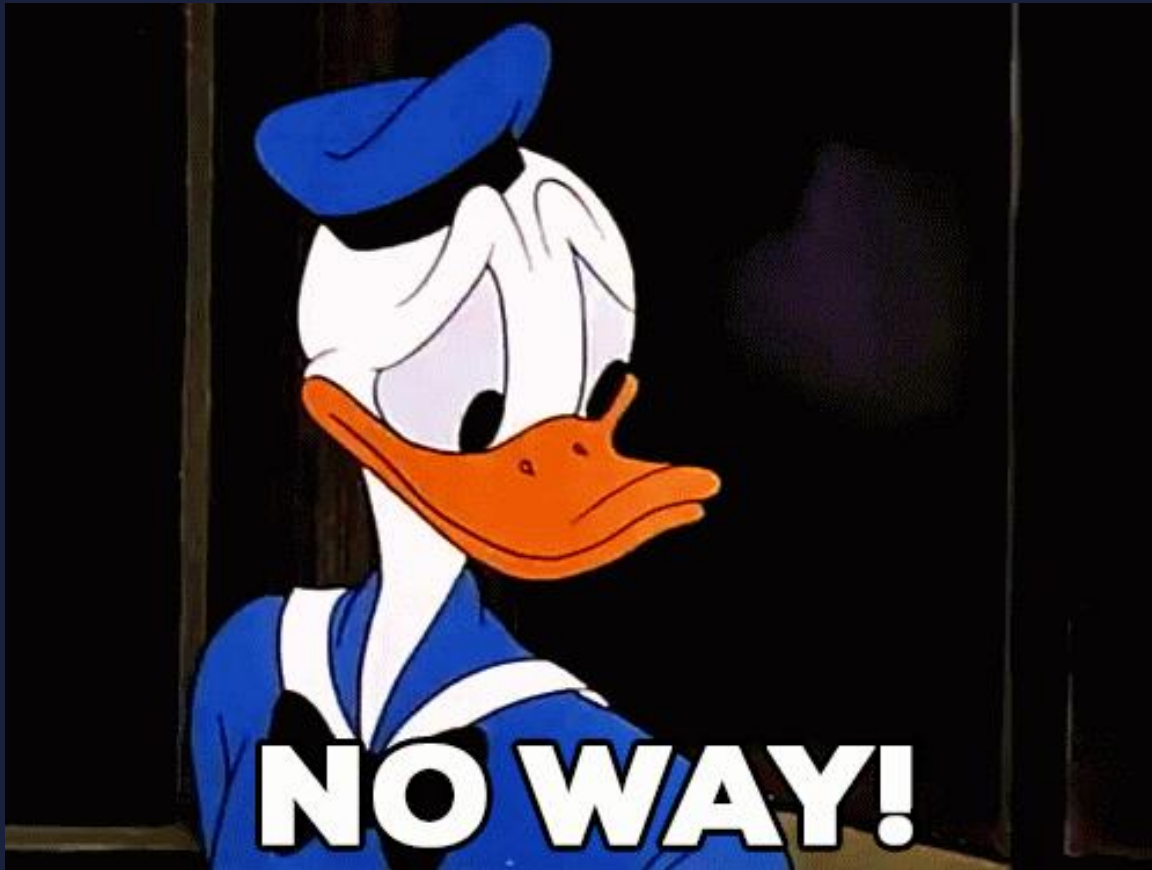

People can **pretend to be someone else** online.

Or **lie about things** online.

Keep it private

Don't share these things online...

- Where you live
- Phone numbers
- Your date of birth

Keep it balanced

Going online is really fun!

But our brains need to
relax too.

Keep it fun

There's so much fun stuff to do online

We just **need to be careful.**

Talk to someone

If things go bad, **talk to an adult you trust.**

Netsafe helps keep people safe online.

Your teachers or parents can go to
Netsafe for help.

**One thing I'll do
to make the
internet a better
place...**
